

DIARY NOTES

15 January 1960

DD/S

[REDACTED]

2. [REDACTED] telephoned to say that he had received a complaint from Bill [REDACTED] of DD/I about moving the material in the Vital Materials Vault at the [REDACTED] to the Records Center. I told him that I had approved of this, but with the understanding that [REDACTED] had coordinated it with all interested parties. I checked with John who assured me that he had done so. I asked him, however, to get in touch with [REDACTED] and explain the matter to him. (I want to check with John to make sure that this has been taken care of to DD/I's satisfaction.)

3. I attended a GEHA Board Meeting at which the Board presented its proposals to implement our new Insurance Program to become effective 1 July 1960. I think that they have a well thought-out approach and I asked [REDACTED] to give me the basic principles in writing after which I would arrange for him to brief General Cabell. I also think that it would be desirable for Bob to make a brief presentation at the next Senior Staff Meeting in order to sell some of the points which we feel are necessary for security reasons.
